

February 20, 2024

Senator Charles Schumer
Senate Majority Leader
United States Senate
S-221, The Capitol
Washington, DC 20510

Representative Mike Johnson
Speaker of the House
United States House of Representatives
H-232, The Capitol
Washington, DC 20515

Senator Mitch McConnell
Senate Minority Leader
United States Senate
S-230, The Capitol
Washington, DC 20510

Representative Hakeem Jeffries
House Minority Leader
United States House of Representatives
H-204, The Capitol
Washington, DC 20515

Dear Majority Leader Schumer, Minority Leader McConnell, Speaker Johnson, and Minority Leader Jeffries,

The National Grocers Association (NGA) alongside the 2,472 undersigned businesses and trade associations, write to urge you to oppose all efforts to restrict purchases under the Supplemental Nutrition Assistance Program (SNAP), a critical resource for struggling families in your home states.

The FY2024 House Agriculture Appropriations bill includes two provisions that threaten to undermine this successful program. One would create a pilot program to catalog and restrict SNAP purchases. The other would collect SNAP purchasing data with the goal of eventually restricting SNAP purchases.

One of the many reasons SNAP works so well is the ease of processing transactions for both retailers and beneficiaries, who can make their own decisions about the food that is best for their households. Choice also ensures families can shop with the same dignity as any other grocery customer.

Contrasted with other nutrition programs, such as the Women, Infants, and Children (WIC) program, flexibility is key to the program's success, and restrictions would limit the program's ability to react to the changing needs of the community. The dietary needs of the SNAP population are diverse and no one diet would be appropriate for all participants. For instance, a cancer patient struggling to gain weight doesn't have the same needs as a child fighting diabetes. WIC's restrictive nature limits retailer participation to 46,000 stores; SNAP's simpler structure boasts a network of 259,000 retailers, improving accessibility.

Restricting eligible items to those approved by the U.S. Department of Agriculture will quickly drive-up food costs and strangle the program with needless red tape with no meaningful public health outcome to show in return. The government will need to categorize more than 600,000 products and update the list each year with thousands more products. Grocery store cashiers will become the food police, telling parents what they can and cannot feed their families.

Perhaps just as troubling is the proposal to surveil SNAP purchases, in essence asking retailers, as an extension of the federal government, to spy on their customers' buying habits and keep records of how they spend their own money. No consumer purchases have ever been subjected to this Orwellian level of snooping by the Federal government, and it would set a terrifying precedent of intruding on the most private areas of our lives. The surveillance would yield incomplete data that would be useless for scientific study because SNAP purchases are only a portion of what beneficiaries purchase. On the other side of the register, retailers would be obligated to safeguard the confidential information from both criminals and competitors looking to get an edge.

Independent grocers serve at the heart of local communities and take pride as essential partners in the public-private partnership of the SNAP program. They are committed to advancing access to healthy food in an equitable manner. SNAP choice is critical to those efforts.

Sincerely,

Central Bakery, Valparaiso
