

wear face masks, STOP GERMS!

A story for
kids 4-6

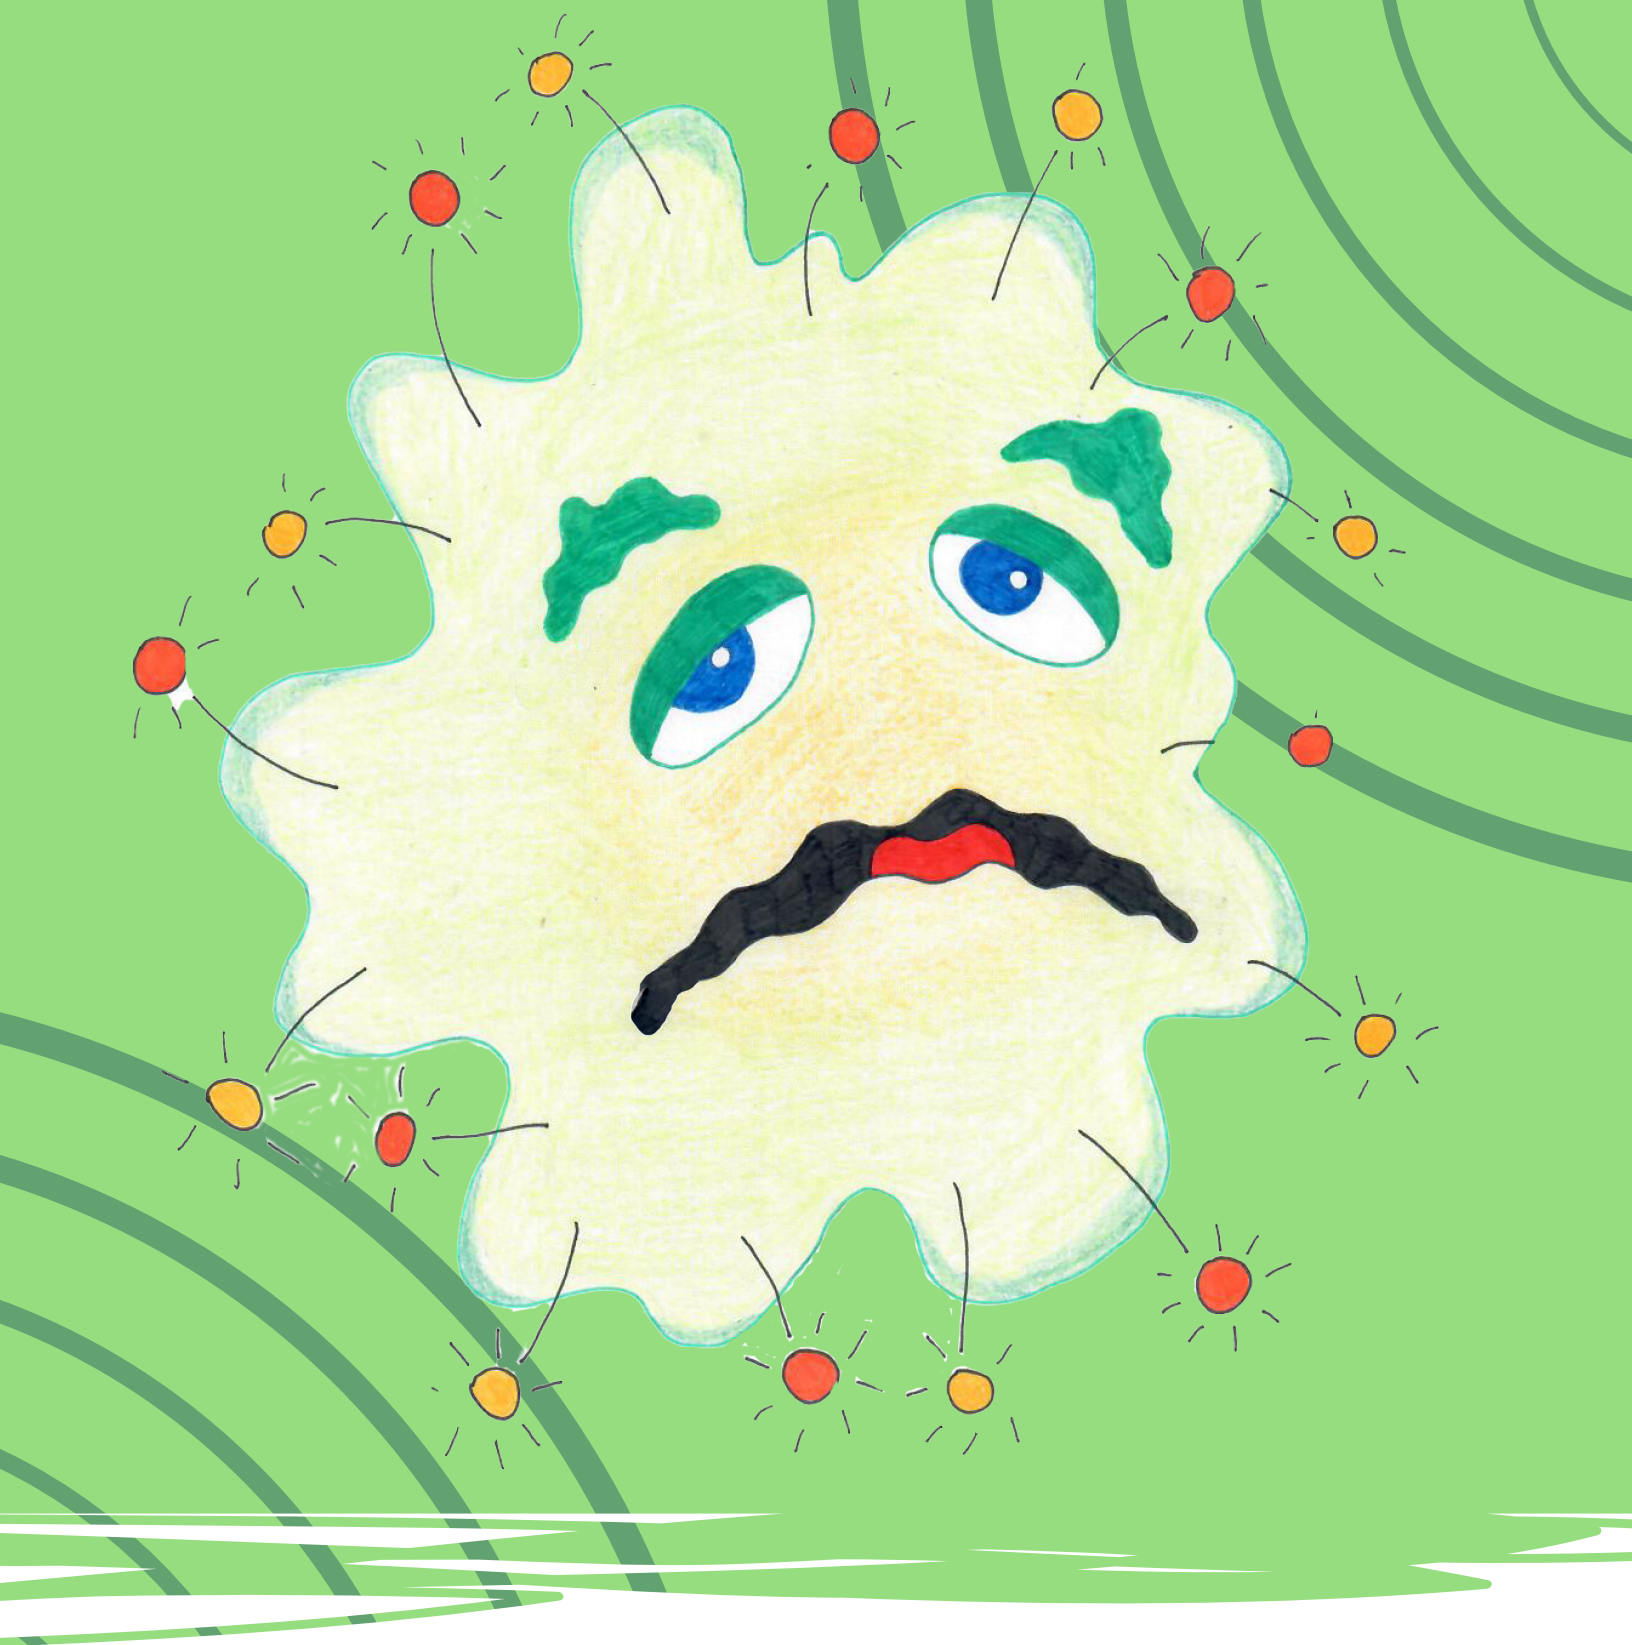

By Heather Hildreth

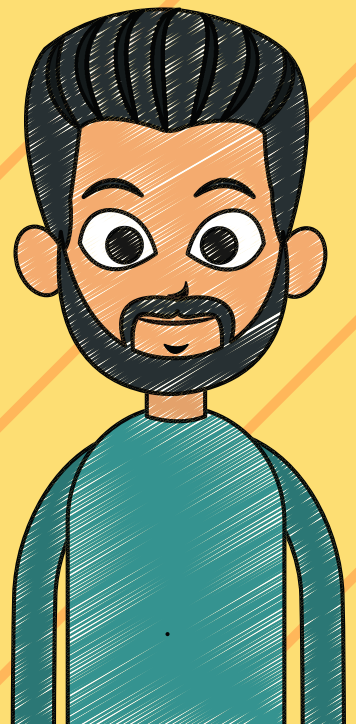

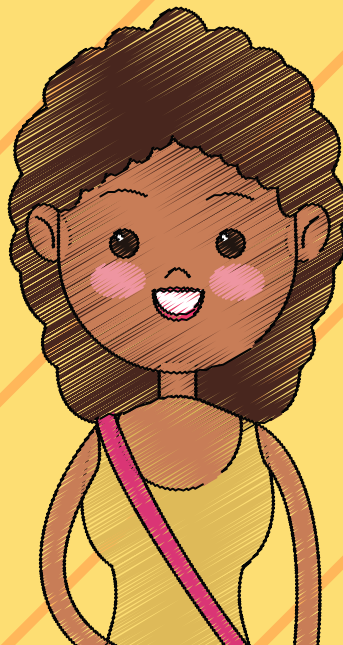

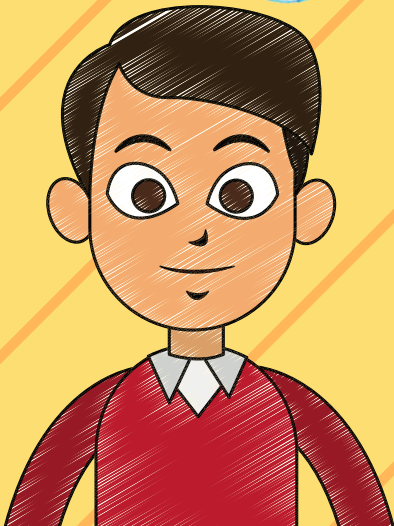

CHILD CARE
CONNECTIONS

This book is dedicated to our community and all the boys and girls curious about why everyone is wearing face masks!

This is Ick The Sick, and he is a germ. His favorite thing to do is make people sick.

In order to stop germs like
ick from spreading, every
person over the age of 5
should wear a face mask.

Right now, even superheroes are wearing special face masks to help protect our communities from germs.

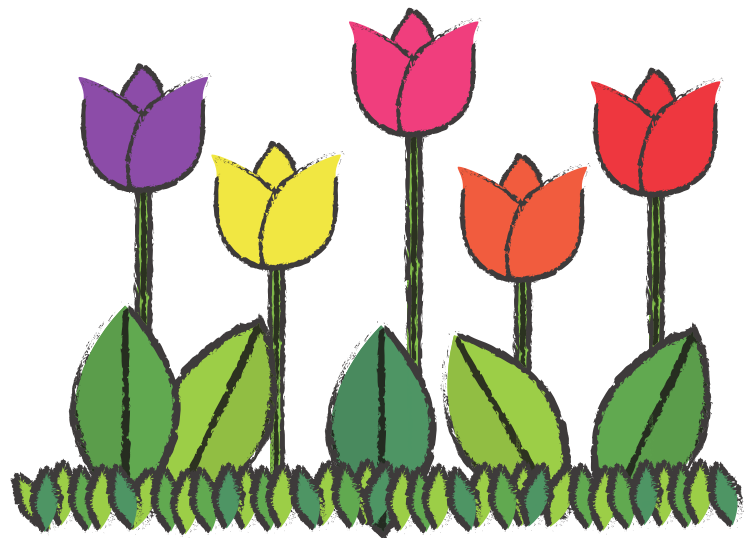

These masks are different from a superhero's regular face mask. How? They help stop germs from spreading!

Princesses are wearing face masks to help teach people how important they are for our health.

And, because they want to show all the boys and girls how cool face masks can be!

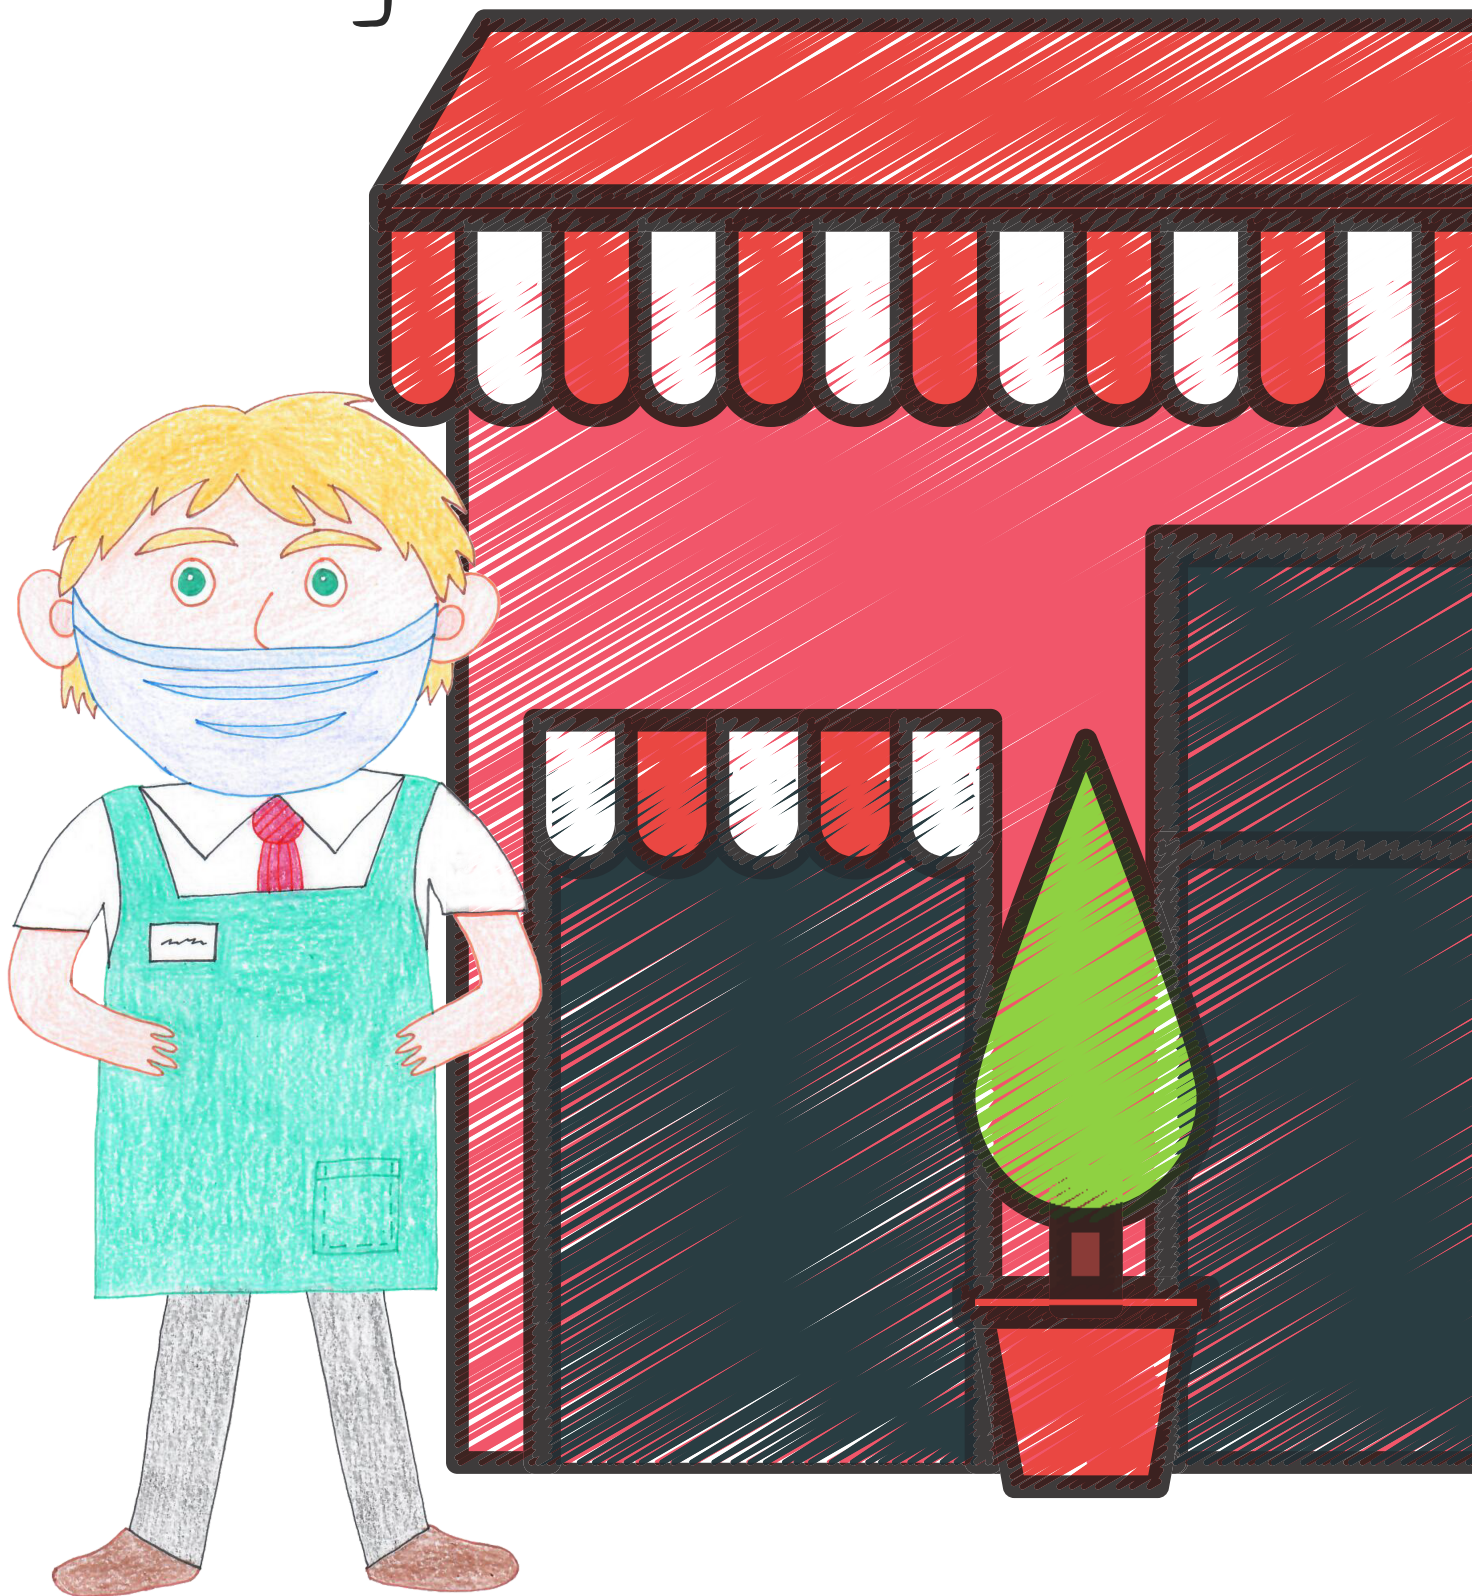

Even your teachers are wearing face masks so they can help protect all of you from germs.

Why? Because, your health and safety is the most important thing to them!

All around town workers are wearing face masks to help stop germs from spreading.

Face masks are not meant to be scary. They're meant to protect you from germs!

If we all do our part and wear our face masks, the germ that is making people sick will go away. We will all be healthy and won't need the masks anymore.

CHILD CARE CONNECTIONS

Child Care Connections is a 501(c)3 nonprofit advocating for the well-being and quality care of children.
