# Progress to Date

# Why Change?

## A new vision confirmed

### Why?

#### TRANSPARENCY

We need to arm staff with data, allow for financial transparency, and hold our people accountable.

#### MODERNIZATION

Our systems are unsupported, disparate, and duplicative. They don't meet current and future needs of UCF.

#### PROCESS IMPROVEMENT

We need to move away from paper and inefficient processes. Staff should focus on activities that align with our mission.

### Why now?

#### OPTIMAL TIMING

UCF has a need to move into more data-driven culture; external forces such as COVID-19 force UCF to change or be left behind.

#### FUTURE INVESTMENT

Shifting away from unsupported technology (i.e. Peoplesoft) and moving to modernized systems will allow UCF to prepare for growth and innovation.

#### CAMPUS ENGAGEMENT

Campus community has demonstrated strong participation and readiness for undergoing significant change needed.

#### LEADERSHIP SUPPORT

Executive and senior leadership recognizes the importance of undertaking this effort and has invested into moving ahead thoughtfully and strategically.

# Approach

## Planning for Change

### Pre-Launch

- Articulate need for Cloud ERP
- Understand key current-state themes
- Identify systems for retirement and processes in-scope

### Pre-Implementation Preparation

Implement changes to support success of ERP implementation (Chart of Accounts structure, business process change, performance improvement, consolidate CRM, etc.)

### Vendor Selection

- Select vendor that best fits UCF's needs for Cloud ERP
- Select other dependent applications and tools

### Implementation

- Implement core ERP application, including business process change
- Over time, include finance, HCM, and Student applications

## Phases

# Knight Vision Program

## Guiding Principles

### **Simplification & Standardization**

Maintain an “ERP First” mindset and strive to use out-of-the-box functionality, seeking to standardize technology across units

### **Transformative Change**

Transform UCF’s business processes to follow best practices, remain consistent across units, and offer increased service

### **Measurable Results**

Track key project and institutional performance metrics, to measure ongoing performance and increased efficiencies

### **Transparent & Inclusive**

Make decisions transparently and share information frequently, asking end-users for input and feedback

### **Enhanced Accountability**

Project team members and governance groups will be held accountable and be empowered to make critical decisions

# Staffing the Project

## Hiring and Backfill Considerations

**Identify Project Roles:** specific functions and positions are needed to do much of the project work and ensure project success

**Hire Project-Based Staff:** interim project roles will be posted, following standard UCF Human Resources policies, processes, and procedures

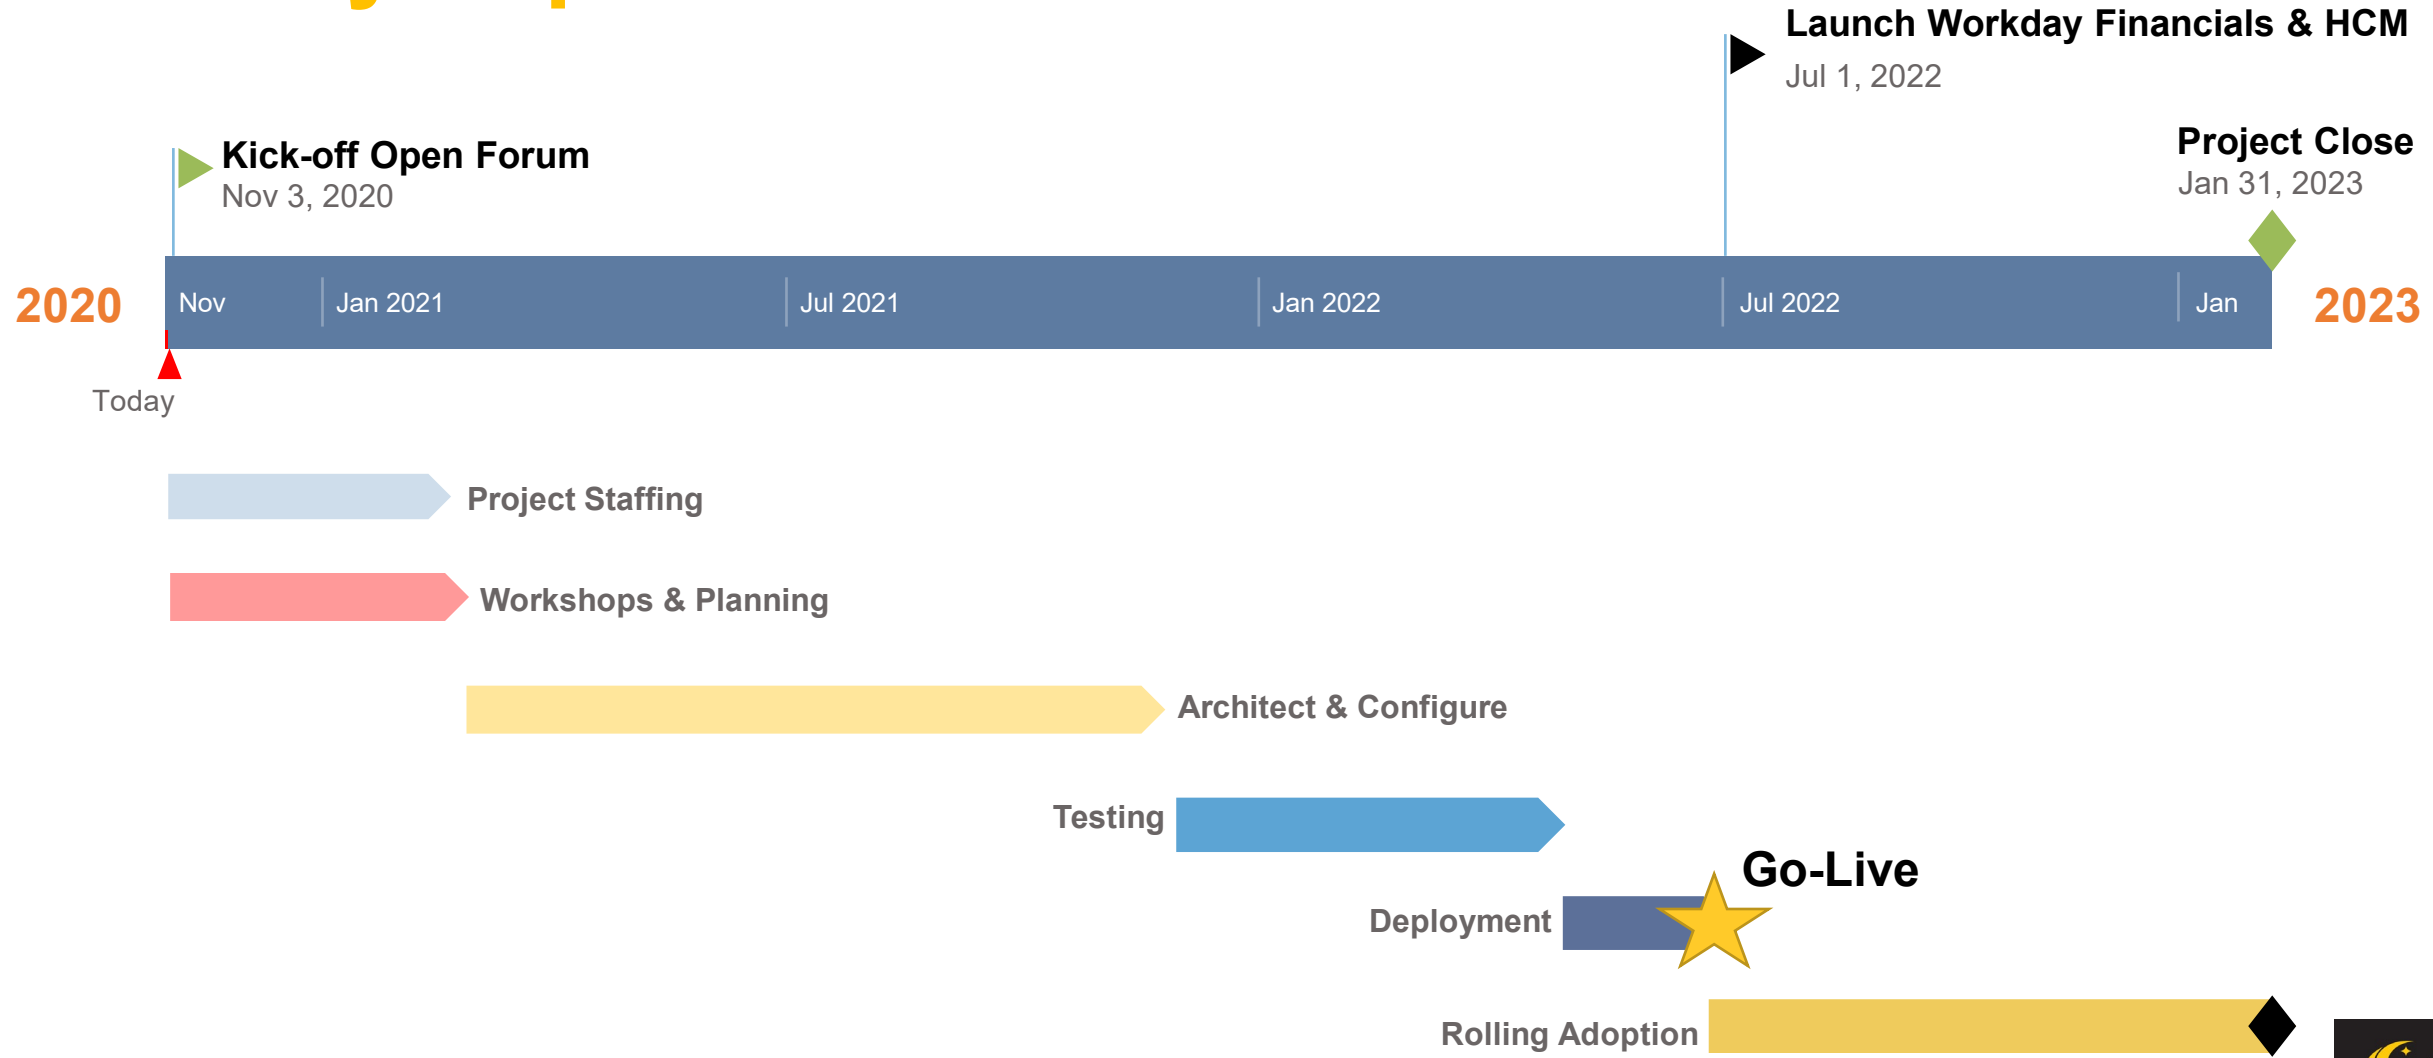

**Backfill Approach:** units may fund interim backfill positions using residual budget which will become available when compensation for Knight Vision personnel is absorbed completely or in part by the Knight Vision project budget
