

StayNTouch

The Cutting-Edge of Cloud PMS Technology

StayNTouch's game-changing, cloud PMS can operate on a tablet, freeing you from bulky legacy systems and revolutionizing your guests' experience. Our PMS will help you increase revenue, reduce costs, mobilize staff, and ultimately captivate your guests.

Backed by a leadership team each with over 20 years of experience in hotel tech, StayNTouch serves many of the most forward-thinking hotels, resorts, and casinos in the industry.

Partnered with Best-of-Breed Hotel Technology Providers

No PMS is an island, and StayNTouch takes pride in its partnerships with best-of-breed 3rd party applications. We can integrate with numerous hotel systems, including leading POSs, CRSs, channel managers, PBX systems, accounting systems, door-lock vendors, and distribution systems to further streamline staff efficiency and enhance the guest experience.

Give your guests a choice in service: Let them check-in on a mobile device, at a self-service kiosk, or with a hotelier anywhere in the hotel.

Improve productivity by streamlining communications and housekeeping tasks.

Drive Revenue with automated upsells at every guest interaction.

Future-Proof your business with feature releases every 3-5 weeks.

Rest Easy with 24/7/365 Global Support: We are here for you, any time, day or night.

Connect your systems seamlessly with our open APIs and over 1100 integrations (direct and indirect).

OUR PRODUCTS

StayNTouch Cloud PMS

Fall in love with your fully Cloud PMS! Our intuitive UI requires minimal staff training and you can run your entire hotel from anywhere, on any device.

Front Desk

Break free from the front desk and interact with guests anywhere in the lobby. Leverage instant room status updates to better respond to guest requests and capitalize on upsell opportunities.

Revenue Management

Manage your rates and inventory from wherever you are, so you can instantly react to shifts in market demands.

Groups

Benefit from robust group functionality and integrations with leading Sales & Catering solutions.

Housekeeping

Automate housekeeping task assignment and management for increased efficiency and let your staff update room status on the go, on their mobile device! No more unnecessary knocking!

Never Pay Extra for Integrations

The PMS of the future does not charge for integrations. Or service. Or implementation. Get everything you need to run your PMS under one simple contract.

StayNTouch Connect APIs

Maximize the flexibility and connectivity of your PMS and scale your business by harnessing our open APIs to connect diverse and emerging technologies.

StayNTouch Guest Mobility

Empower your guests with a completely mobile check-in and check-out! Let your travelers check-in/out online, use their smartphone as a room key, and even scan their identification with an iPhone.

Increase your ROI with monetized early check-in/late check-out, and automated offers for room upgrades, complete with a full room display.

Our Mobile Check-In can easily capture guest data and buying preferences, and turn those insights into targeted offers, sent directly to guests' smartphones.

StayNTouch Guest Kiosk

Nobody likes to wait in line. Let your guests skip the line by streamlining the check-in, key retrieval, and check-out processes.

Each Guest Kiosk station is run on a tablet, and is specifically branded to your hotel's standards. It can also be integrated with a credit card reader and key encoder.

Our Guest Kiosk comes with optional ID scanning and facial-recognition technology, for an added layer of assurance and convenience.

Now, with advanced AI and a sleek new kiosk by Aila Technologies, our Guest Kiosk can instantly process guest data from a scanned ID, allowing it to securely accept walk-in reservations on the fly.
