

# Midway Elementary Named a National Distinguished School!

On March 23, 2024, Midway Elementary celebrated with their community their National Distinguished School designation. Congratulatory speeches were heard from Congressman Earl “Buddy” Carter, State Representative Steven Meeks, and GaDOE’s Title I Senior Program Manager Dr. Ken Banter. Each year, the National Association of ESEA State Program Administrators (NAESPA) recognizes two schools from each state with this honor. Midway Elementary was selected by Georgia’s Title I, Part A program to represent Georgia. Midway was among 31 other Title I schools to apply for this award and was selected based on their current academic achievement and written responses detailing initiatives implemented that resulted in outstanding academic achievement among traditionally underserved subgroups of students.
